If you're looking at children-related topics and mother-related do...

That's just about women and the womb. The actual children and motherhood is much more Leo 5th house, Aries first house and Gemini 3rd house.

5th=Creativity + love

1st= Birth + new beginnings + THE BABY

3rd=community support+ communication+learning+ friends/roommate (the baby is a new permanent roommate lol)

Especially the last one comes into play when they go to school and you have to be involved and live with them everywhere constantly and socialize with teachers and parents and your neighbors. It does kind of go in order with their age however 5th house feels ever present.
