

Astrology / Notice their lilith. Synastry

If it's Conjoint your rising, Jupiter, Venus, Sun then it's a good thing.
 You can have them wrapped under your thumb.
 Pluto maybe but not as much, or yes idk. Not Saturn, Neptune, Uranus.
 If you want to last and not be at a distance forever.
 But not moon, moon will be seemingly good at first but quickly fizzle
 out like you maybe trigger them/ scare them etc. making them too
 suspicious so they believe you have ill-intentions.

Conjoint your Mars will definitely end up bothering you even if it goes
 ok for a little while.

Not conjoint Saturn.
 Not opposite moon unless you have other good placements there. Then
 they'll trigger you, can be heavy deep love and pain. You aren't sure you
 can trust them.

Sun opposite Lilith : the lilith person might feel like their hidden darker
 true emotional self is seen. The sun person might feel like the lilith
 person needs them emotionally as a guide.
