

# Small Wisom And Nonsense / When u take care of kids you have to raise them intelligently.

For school: and days off ask them always one or more things they learned today. No matter f it's friend's social learning their own self who they are the stars their planet their environment the science. The technology animals people individually music math language culture movement how to do your hair and make up how you want to and more! Cooking painting piano dog loving mom being sex romance!  
Just to stimulate and meditate and memorized the things we love to learn.
